

Rebecca Brannon

May 5, 2020

My name is Rebecca Brannon and I am excited to seek re-election to the Yosemite Lakes Owners Association Board of Directors! My husband Steve and I moved to Yosemite Lakes Park in 2010 and cannot imagine living anywhere else. We enjoy the beauty of our lakes, the wonderful amenities and the variety of community events that we participate in here in YLP.

I have been an active member of the association for more than eight years, attending monthly board meetings, budget meetings, town halls and various committee meetings. In the past I chaired the Governing Documents Committee and Finance Committee. Presently I sit as a member of the ECC Committee and as President of the Board. In addition, I am an active member of Ladies of the Lakes. My participation in all these groups has given me the opportunity to gain a deep understanding of the operation of our HOA as well as a member's perspective on the association. This experience has given me an understanding of the importance of following our governing documents and to comply with regulations found in the Davis Stirling Act for the benefit and protection of the association.

The board must continue to pursue repair and replacement of the amenities and common areas that we all enjoy, and prioritize the need for a clean and sustainable water and road system.

As a board, we have made progress, not perfection. I hope to continue to work with a strong board which looks toward the future, researches solutions, and seek answers to the challenges this association faces while ensuring the concerns and ideas of the association members are considered.

I ask you to vote for Rebecca Brannon. Together we can continue the progress to keep YLP an amazing place to call home!
